

Make Believe

St. Vincent

There are times when you feel sad and blue
Something wrong and you don't know what to do
When you feel that way stop and think awhile
Just make believe and smile
Make believe when you're glad when you're sorry
Sunshine will follow your way
When things go wrong
It won't be long
Soon it be right again
Though your love dreams have gone
Make believe don't lead on
Smile though your heart maybe broken
Though when bad luck have departs
You'll find good luck starts
Don't grieve
Just make believe...
When you think your luck is bad
And you're feeling mighty sad
With all your cares and trouble far behind
Keep on smiling that's the way
And remember what I say
Perfect happiness is just a state of mind
Though your love dreams have gone
Make believe don't lead on
Smile when your heart is still broken
For when bad luck departs
You will find good luck starts
Don't grieve
Just make believe...
Though your love dreams have gone
Make believe don't lead on
Smile though your heart maybe broken
For when bad luck departs
You will find good luck starts
Don't grieve
Just make believe
