

Driving intoxicated anticipating blurrier visions of Christ
Are you the saviour that brings us our daily bread?
Some of us wine, others rice
See through a crack in the darkness
See dark in the day, day
See what we sacrifice for progress
See masks that we wear, wear

On the edge
You said that it was tragic the way I turned you in
Into a fantasy
For a day

I am the window and you are the stone that was thrown at my head
You said you see through me better when I'm broken I just want
to be erased
Create fantasies just to help you get through the day, day

You better escape or we'll scalp you
We fought the world
Come on, lets play

On the edge
You said that it was tragic
The way I turned you in
Into a fantasy
For a day

See through a crack in the darkness
See dark in the day, day
See what we sacrifice for progress
See masks that we wear, wear

Create fantasies just to help you get through the day day
You better escape or we'll scalp you
We fought the world
Now come, lets play

On the edge
You said that it was tragic
The way I turned you in
Into the fantasy
