

## I Didn't Know About You

Stacey Kent

I ran around, with my own little crowd  
The usual laughs, not often, but loud  
And in the world that I knew  
I didn't know about you  
Chasing after the ring, on the merry-go-round  
Just taking my fun, where it could be found  
And yet what else could I do  
I didn't know about you  
[Instrumental]  
Darling, now I know  
I had the loneliest yesterday, everyday  
In your arms  
I know for once in my life, I'm living  
Had a good time, everytime I went out  
Romance was a thing, I kidded about  
How could I know about love  
I didn't know about you  
How could I know about love  
I didn't know about you
