

## Boomerang

Stacey Q

We're off in different circles  
On to other things  
All the while  
Remembering  
There this fate would have it  
I see you out somewhere  
And it all comes back

Boomerang  
Boomerang

Once again divided  
By too many miles  
My mind is on you all the while  
Then again it happens  
When I see your smile  
Well, it all comes back

Boomerang  
Boomerang

Try and throw it away  
Well, that'll be the day  
'Cause there is one thing that we've learn  
Well, it will always return  
In my heart you will burn

Boomerang  
Boomerang  
Boomerang  
Boomerang

No matter how far we go  
We always come back  
We've got a love boomerang  
It always comes back  
No matter how far we go  
We always come back  
We've got a love boomerang  
It always comes back
