

# Dance The Night

Stacey Q

Dance the night  
Everything will be alright  
Dance your love  
Just what you're dreaming of

There is nothing more that we can be  
Just what we are  
I am here for you, be there for me  
I'm taking you away now  
Don't you wanna shake your kiss away?  
Night into day  
Doesn't matter what those people say  
You can

Dance the night (dance the night)  
Everything will be alright (you can)  
Dance your love (dance your love)  
Just what you're dreaming of (and you'll be dreaming of me)  
Dance the night (dance the night)  
Everything will be alright (you're gonna feel love with me)  
Dance your love (your love)  
Just what you're dreaming of (ooh yeah)

You are not alone, you are with me  
And love is where we are  
Open up our eyes so we can see  
See what you can do tonight  
Let the music climb into your soul  
You can let your body take control  
You can

Dance the night (dance the night)  
Everything will be alright (everything will be alright)  
Dance your love (dance your love)  
Just what you're dreaming of (and you'll be dreaming of me)  
Dance the night (dance the night)  
Everything will be alright (ooh yeah)  
Dance your love (your love)  
Just what you're dreaming of (dance the night)

Dance the night (dance the night)  
Everything will be alright (you'll be dreaming of me)  
Dance your love (your love)  
Just what you're dreaming of (ooh)  
Dance the night (dance the night)  
Everything will be alright (everything will be alright tonight)  
Dance your love (dance your love)  
Just what you're dreaming of (and you'll be dreaming of me)  
Dance the night  
Everything will be alright  
Dance your love  
Just what you're dreaming of  
Dance the night  
Everything will be alright  
Dance your love  
Just what you're dreaming of
