

Euphoria

Stacey Q

(Explore euphoria)
Explore euphoria, give it a shot
(Explore euphoria)
Explore euphoria, give it all you got
(Never to expand)
Never to expand, your wish, my command
(Explore euphoria)
(Euphoria)

A natural high resonates with me
Tapped into it, let it begin
Forbidden dance, temptation meets desire
Take a deep breath, can you take me higher?

Too much is never enough
Take me where I wanna go
In the room comfortably numb
Perception of reality accepted by some

(Explore euphoria)
Explore euphoria, give it a shot
(Explore euphoria)
Explore euphoria, give it all you got
(Never to expand)
Never to expand, your wish, my command
(Explore euphoria)
(Euphoria)

Take me, take me, take me, take me
Take me higher, take me higher
Take me higher, take me higher
(Euphoria)
Explore euphoria, explore euphoria
Explore euphoria, explore euphoria

Use your spirit in a purple haze
Forget whatever refusion your mind will raise
No [?] step outside you skin
Don't be afraid, it's not a sin

Too much is never enough
Take me where I wanna go
In the room comfortably numb
Perception of reality accepted by some

Never to expand, your wish, my command
