No way
I can't believe it
You like all the songs I like
You're not real

You are a perfect angel from above
And I love to love you, I can't get enough
Love you when the sun is shining in the rain
Since I let you love me, I'll never be the same

Bright stars and jaguars and big diamonds rings
These are my favorite things

I love you babe and when you send me a big surprise
Stars that shine above and moonlight in your eyes
How did I live without you, I don't know
You're the only habit I never will outgrow

Fast cars and guitars and record machines
These are my favorite dreams
Weekends and heart strings and romance for two
Take me to heaven with you

You're my perfect angel
Fallen from above
Don't wanna live without you
Just can't get enough, oh

Fast cars and guitars and record machines
These are my favorite dreams
Bright stars and jaguars and big diamonds rings
These are my favorite things
These are my favorite things
