

Hard Machine

Stacey Q

Uh-huh, I know
Uh, you think you steal the show
Uh, well just in case you haven't heard
There's something you should know
Oh no
You're not
Uh, You think you're really hot
Uh, well, the Hard Machine is a really mean
It'll roll right over you
It'll rock your sock
It can knock your block
It does anything you want it to
If you take a ride on the hard machine
You know you can never lose

Shake, rattle, move, grove
It'll rock you til you drop
Uh, smooth move
Uh, nothing to prove
Because it don't never stop

I said, what I mean
The Hard Machine
And don't give me no jive
I said, what I mean
The Hard Machine
And it's all the way live

Hard machine
The hard machine
I'll never forget that day
You walked away
My heart melted like Dali's clock
I heard a beatbox and voices in the night
And I knew that the Hard Machine
Was here to rock

I said, what I mean
The Hard Machine
I said, what I mean
The Hard Machine
