It's a polyphonic sound
It's the shape of things
It's a very modern century
That we're living in
You were seventeen and I was nine
I saw you take my sister to bed that time
I was young but I knew I'd want to

Playback
Baby, playback your love to me
Play it in the studio
Play it on the radio

It's a day in my life
It's the coldest yet
You sit there with your Tanqueray
And a cigarette
Donne moi ce que tu as promis
Donne moi ce que tu as dit
I'm not going to wait around for you to

Playback
Baby, playback your love to me
Play it in the studio
Play it on the radio

It's the supersonic look
Of the things to come
It's the jet age now
That we're coming from
You're a high tech man of discovery
But you walk away and leave me here in misery
Alors, just walk on

Playback
Baby, playback your love to me
Play it in the studio
Play it on the radio
