

Take That Holiday

Stacey Q

Hey Mr. Doctor, can you make me feel alright?
('Cause) everything is bringing me down
(You see) I'm tired of working from nine to five
You've got to find an an answer for me now

I see the weekend on a Monday afternoon
(It's) no use trying to tell me what to do
Hey Mister Boss, I feel the time is right
To pack my bags and leave tonight

It's time to take that holiday
Just get away (on) holiday
You'll find romance (on) holiday
Just take a chance (on) holiday

The time is right to take that flight
I'm leavin' all my worries behind (me now)
Take me up
Take me up (and) never let me down
There ain't nothin' gonna stop me now

(You) could say I have a travel fascination
I always make the plans to get out right
(I) just can't wait to reach my destination
If I could have my way
I would make everyday a holiday

It's time to take that holiday
Just get away (on) holiday
You'll find romance (on) holiday
Just take a chance (on) holiday
