Temptation

Stacey Q

All of my life I hesitate
Afraid of myself, I have to wait
Some other life I can, but will you heal me now

Playing the cards out in my head
Playing the cards right when you said
I am the only way that we can heal your soul

All of my life I've waited
For one great melody
All of my life I resisted this

Temptation
What you want is what I want
Temptation
What you want is what I need
Temptation
What you want is what I want
Temptation, Temptation

Tied up with you I clinch my fist
Tried to relax my heart just skips
A little bit more and I may lose control

All of my life I've waited
For one great melody
All of my life I resisted this

Temptation
What you want is what I want
Temptation
What you want is what I need
Temptation
What you want is what I want
Temptation, Temptation

Ohh Ooo

All of my life I've waited
For one great melody
For once in my life, I gave into this

Temptation
What you want is what I want
Temptation
What you want is what I need
Temptation
What you want is what I want
Temptation

Temptation
What you want is what I want
Temptation
What you want is what I need
Temptation
What you want is what I want
Temptation, Temptation

Temptation
What you want is what I want
Temptation
What you want is what I need
Temptation
What you want is what I want
Temptation, Temptation
Temptation, Temptation
