

The Model

Stacey Q

You can take my picture if you like
It's instamatic eye delight
Close-ups can be nice, depends
I like telephoto lens

I'm in a living color every night
Come in to focus, turn up the light
I'm every girl in your fantasy
Come outside and play with me

Don't shoot me in black-and-white
My colors are so bright tonight
It's photographic ecstasy
Picture that with you and me

I'm in a living color every night
Come in to focus, turn up the light
I'm every girl in your fantasy
Come outside and play with me

I'm in a living color every night
Come in to focus, turn up the light
I'm every girl in your fantasy
Come outside and play with me

You can take my picture if you like
It's instamatic eye delight
I can change my look any way
I'm on location every day

Don't shoot me in black and white
My colors are so bright tonight
