

# The River

Stacey Q

There's a secret deep inside  
And I kept running high  
From all the things I missed because of you  
In the dead of night we made love  
It's all that I can think of  
And there's no one in this world for me to turn to

Sometimes wish when I'm there it's all being wind to air  
Take me to the river, out of the rain  
Take me to the river, wash away my pain  
Lead me to your shelter, out of the rain

We were close to love, now, weren't we?  
I thought you'd never hurt me  
Do the things you promised not to do  
I am going down completely  
Can't you lift me up, please, rescue me  
And it's just another lonely night without you

Cinnamon crush, far away ice, not care what lie in the skies  
Take me to the river, out of the rain  
Take me to the river, wash away my pain  
Lead me to your shelter, out of the rain  
Sometimes wish when I'm there it's all being wind to air  
Take me to the river, out of the rain  
Take me to the river, wash away my pain  
Lead me to your shelter, out of the rain

And the fire burns so slowly  
And the [?]

Sometimes wish when I'm there it's all being wind to air  
Take me to the river, out of the rain  
Take me to the river, wash away my pain  
Lead me to your shelter, out of the rain  
Cinnamon crush, far away ice, not care what lie in the skies  
Take me to the river, out of the rain  
Take me to the river, wash away my pain  
Lead me to your shelter, out of the rain
