

# Deep End

Stacey Ryan

I have you wrapped around my little finger if that's what I want  
If love's a game of chess, I'll be the queen and baby you'll be my pawn  
Why do you look so serious  
Always overthinking every experience  
I promise that it's not that serious

If you wanna be with me  
Better stop to think  
Tread carefully  
Before you jump into the deep end  
Deep end  
If you think you're falling in love  
Tell me I'm the one  
Go have a little fun  
Before you jump into the deep end  
Deep end

I try my best to take my own advice But damn you make it so hard  
But never mind I take it back I'll never get caught showing my cards  
Why do you look so serious  
Always overthinking every experience  
I promise that it's not that serious

If you wanna be with me  
Better stop to think  
Tread carefully  
Before you jump into the deep end  
Deep end  
If you think you're falling in love  
Tell me I'm the one  
Go have a little fun  
Before you jump into the deep end  
Deep end

No reflection, dive right into the deep end, deep end  
Picture you and me drowning in the deep end, deep end  
(Ooh baby)

If you wanna be with me  
Better stop to think  
Tread carefully  
Before you jump into the deep end  
Deep end  
If you think you're falling in love  
Tell me I'm the one  
Go have a little fun  
Before you jump into the deep end  
Deep end

If you wanna be with me  
Better stop to think  
Tread carefully  
Before you jump into the deep end  
Deep end  
If you think you're falling in love  
Tell me I'm the one  
Go have a little fun

Before you jump into the deep end  
Deep end

If you wanna be with me  
Better stop to think  
Tread carefully  
Before you jump into the deep end
