

Homewrecker

Stacey Ryan

You've got her and
And she's got no idea
And I've got words and empty promises
That in the end mean nothing
I was young
You were there
Was I dumb or did you make feel
Like we were really something

Did you plan this
What kinda man just
Takes advantage
Damn you did some damage
You were careless
Wish I could care less
Is it all my fault?

Guess I should've known better
You're someone else's forever
The other girl always gets crowned the home wrecker
Tryna keep myself together
While you're playing house with her
You really shoulda known better
So don't call me
And don't call me
A home wrecker

House of cards
Gentle wind
I could take it to the grave
It sure we be a shame
If the walls caved in
How you live
Under my skin
Every word and every and phrase
The little things you say that hurt like sin

Did you plan this
What kinda man just
Takes advantage damn you did some damage
You were careless
Wish I could care less
Is it all my fault?

Guess I should've known better
You're someone else's forever
The other girl always gets crowned the home wrecker
Tryna keep myself together
While you're playing house with her
You really shoulda known better
So don't call me
And don't call me
A home wrecker
Don't call me
A homewrecker
So don't you dare call me
Don't you dare call me

Guess you didn't know better
Went and through away forever
And now it's time to crown you as the homewrecker
