

## Everbeen Everfelt

Stacy Barthe

Pain killers have fun  
Come on come on take my pain away  
Numb me to the point of no return it hurts  
I just can't bare  
To sleep alone there's a hole where my heart  
Ehhh use to call home home home

This is the lowest I've Everbeen,  
My hearts the heaviest it's Everfelt  
My stomachs full of it inside the belt,  
This is the worst break up Everfelt  
This is the saddest I've Everbeen  
Couldn't explain the pain nEverfelt  
I'm as broken as I've Everbeen  
This is the worst break up Everfelt

[Koby:]

I'm sorry that I hurt you the way I did  
With out you I'll die bullet to the brain girl  
I will go insane girl without ya  
I can't change the past but anything you ask of me  
I'll do my best to release your stress I'll do it all

This is the lowest I've Everbeen,  
My hearts the heaviest it's Everfelt  
My stomachs full of it inside the belt,  
This is the worst break up Everfelt  
This is the saddest I've Everbeen  
Couldn't explain the pain nEverfelt  
I'm as broken as I've Everbeen  
This is the worst break up Everfelt
