

Hell Yeah!

Stacy Barthe

Done the team like a freak, time you trying
Progress, something's always holding you
Waiting on line for mine, feets start a fire
But there's nothing left
They told us, nothing left, no
My people just tryina live right
But the devil all in my way
We're just tryina live right
But the devil all in the way

They say we living in hell here,
Hell yeah, hell yeah, hell yeah
They say we living in hell here,
Hell yeah, hell yeah, hell yeah

Quitting on it at all, listen
There's violence and...
For people to live again
Time stop pour round more half to death
While the rich live lavish
We're just dying to live

People just tryina live right
But the devil all in my way
We're just tryina live right
But the devil all in the way

They say we living in hell here,
Hell yeah, hell yeah, hell yeah
They say we living in hell here,
Hell yeah, hell yeah, hell yeah

I know a place, where ain't nobody crying yeah
I'll take you there
Hey, I know a place, where ain't nobody dying yeah
I'll take you there

Father which are in heaven
Hallowed thy be thy name
Fire all in the eye, coming to take the flame
Qualified as a boss, containers with nigga talk
Shark over the sneakers, she with me I'm dippin hard
Got me runnin the streets, tell me sky is the limit
Praying I'm going to heaven or God make me a tennant
Seein some hard times but really we all fine
Till the day that I'm gone
Just know that I'm gone, just know that the game mine
Felon of fell in love, know the devil's a liar
Beautiful is today, can't imagine tomorrow
Beautiful is today, can't imagine tomorrow

People just tryina live right
But the devil all in my way
We're just tryina live right
But the devil all in the way

They say we living in hell here,

Hell yeah, hell yeah, hell yeah
They say we living in hell here,
Hell yeah, hell yeah, hell yeah.
