

Party

Stacy Barthe

Live each day like it's your birthday
Every breathe you take deserves a celebration
Now pray for another one
[?] lights still shining
Be sitting around thinking bout
Problems in the ways of the world
Forget them, at least for now, now

Life is a party, a party, c'est la vie
Your beautiful body,
Wish that we could live and dance forever
Don't let the music ever stop, c'est la vie, la vie
C'est la vie, c'est la vie

Too much should never be enough
Especially when it comes to all the things you love
You better buy and [?] enjoy the pleasures on
Love and pretty people, champagne and [?]
Come on, come on, [?] drink up
At least for a night

Life is a party, a party, c'est la vie
Your beautiful body,
Wish that we could live and dance forever
Don't let the music ever stop, c'est la vie, la vie
C'est la vie, c'est la vie [x2]
