

# Timeless Love

Stacy Barthe

When I was young I used to see on [?] couples in the park  
Looking wild wondered how [?]  
Wondered how you [?] someone you love [?] go  
I wonder if it ever happened to me  
And then you came along and happened to me  
I could [?] not to you forever

[Chorus:]

We got that time less love  
We got that the type of love that never goes how to strat  
We got that number [?] 67 bottle one  
[?] comes on you always wanna sing along  
We got that timeless love  
We got that, we got that

I hold on to your every word as if I [?] never speed again  
I never get [?] timing and that ain't' that even funny  
We took [?] like the key is [?] never happen to me  
But it did and I'm so happy

[Chorus]

We got that time less love  
We got that the type of love that never goes how to strat  
We got that number [?] 67 bottle one  
[?] comes on you always wanna sing along  
We got that timeless love  
We got that, we got that

Every time I look in your eyes  
I see beauty I see thing I never thought I'll find  
You're the closest thing to perfection [?]  
Rocking like my favourite [?]

[Chorus x2]

We got that time less love  
We got that the type of love that never goes how to strat  
We got that number [?] 67 bottle one  
[?] comes on you always wanna sing along  
We got that timeless love  
We got that, we got that
