

# I've Loved You Somewhere Before

Stacy Lattisaw

I, I knew right away that I was sure  
A moment we said hello  
Then I have met you once before  
A very long time ago  
I don't remember when, it might have been a dream  
No, I don't need to stay

But I've, I've loved you somewhere before  
Here in another time  
A moment we forgot, remember  
I've, I've loved you somewhere before  
No matter what we do, where we are  
I will end up finding you

Now, now that you're here, I won't let go  
I've lost you once before  
I only loved you 'cause I know  
It's what I was created for  
No, I don't understand why we took so long  
To take each other's hand

But I've, I've loved you somewhere before  
Here in another time  
A moment we forgot, remember  
I've, I've loved you somewhere before  
No matter what we do, where we are  
I will end up finding you  
Ooh...

Yeah, oh I've, I've loved you somewhere before  
Here in another time  
A moment we forgot, remember  
I've, I've loved you somewhere before  
No matter what we do, where we are  
I will end up finding you  
I've loved you somewhere before  
No matter what we do, where we are  
I will end up finding you  
Finding you...
