

Together

Stacy Lattisaw

Together, together
Like a leaf stuck to a tree
That's the way it ought to be with you and me
Forevermore

Never, never
Do I ever think of you
Without including myself lying close to you
Forevermore

It's not so easy loving you
And that's still giving you your freedom
But like a butterfly will fly
Without a room to breathe in
Don't you think I know, so I'll let you go
So that we can stay

Together, together
Like a leaf stuck to a tree
That's the way it ought to be with you and me
Forevermore

Whatever, clever
Please, I'll make a way from you
Disappear the moment that I'm hope to you
Tenderly

It's not so easy loving you
And that's still giving you your freedom
But like a butterfly will fly
Without a room to breathe in
Don't you think I know, so I'll let you go
So that we can stay

Together, together
We'll give and take so we can make it
In this world

Together, together
Love is all we're fighting for
Tell me what is worth more than togetherness
Forevermore

Together, together
We'll give and take so we can make it
In this world

Together, together
Love is all we're fighting for
Tell me what is worth more than togetherness
Forevermore
