

## With You

Stacy Lattisaw

You came to me  
And took my hand  
You set me free  
And here I am with you

You let me in  
And kept me there  
You helped me win  
I learn to care with you

With you, I don't have to cry  
No more lonely nights  
With you, I don't need to hide  
'Cause you're right here by my side  
With you, all my dreams come true  
Every day is brand new  
Oh darling, I'm so in love with you

I've learned before  
But not, not as strong  
I only know  
I just belong with you

With you, I don't have to cry  
No more lonely nights  
With you, I don't need to hide  
'Cause you're right here by my side  
With you, all my dreams come true  
Every day is brand new  
Oh darling, I'm so in love with you  
Oh darling, I'm so in love with you
