

# Epiphany

Staind

**C**  
Your words to me just a whisper

**F**  
your faces so unclear

**C**  
I try to pay attention

**F**  
and your words just disappear

**Ami** **C** **F**  
R: Cause its always raining in my head

**Ami** **C** **Csus** **F**  
forget all the things I should have said

**C**  
So I speak to you in riddles

**F**  
cause my words get in my way

**C**  
I smoke the whole thing to my head

**F**  
and feel it wash away

**C**  
Cause I can't take anymore of this

**F**  
I wanna come apart

**C**  
Or dig myself a little whole

**F**  
Inside your precious heart

**Ami** **C** **F**  
Cause its always raining in my head

**Ami** **C** **Csus** **F**  
Forget all the things i should have said

**C**  
I am nothing more than

**F**  
a little boy inside

**C**  
that cries out for attention

**F**  
yet I always try to hide

**C**  
Cause I talk to you like children

**F**  
though I don't know how I feel

**C**  
But I know I'll do the right thing

**F**  
If the right things is revealed

**Ami** **C** **F**  
Cause its always raining in my head

**Ami** **C** **Csus** **F**  
Forget all the things i should have said
