

Paper Wings

Staind

You're pathetic
You're fucking weak
And I'm sick of it all
Social anesthetic
To the people you meet
And I'm sick of it all
You're unapologetic
Even though you shouldn't be
And I'm sick of it all
You just don't get it
You never did
And I'm sick of it all
Falling faster
(Sick of it all)
To learning
The weight of your sorrow
Make some paper wings
And learn to fly
If there's no tomorrow
Burn your paper wings
And say goodbye
You cut me
So fucking deep
And I'm sick of it all
You fucking drain me
I can't breathe
And I'm sick of it all
I break down
On my knees
And I'm sick of it all
You're so unreal
How you just don't get it
And I'm sick of it all
Falling faster
(I'm sick of it all)
To learning
The weight of your sorrow
Make some paper wings
And learn to fly
If there's no tomorrow
Burn your paper wings
And say goodbye

I can't go on like this
Not even one more day
I can't go on like this
I can't go on

I can't go on like this
Not even one more day
I can't go on like this
I can't go on

The weight of your sorrow
Make some paper wings
And learn to fly
If there's no tomorrow

Burn your paper wings
And say goodbye

Burn your paper wings
And say goodbye
