This is my life

**B C#**

It's not what it was before

**B B C#**

All these feelings I share

**B**

And these are my dreams

**B C#**

That I've never lived before

**B B C#**

Somebody shake me cause I

**B B**

I must be sleeping

All the struggles we thought were in vain

**C#**

All the mistakes one life contained

**B**

**F#**

They finally start to go away

**C#**

Now that we're here, so far away

**B**

**#F**

And I feel like I can face the day

**C#**

**Es**

I can forgive and I'm not ashamed

**B**

**C#**

To be the person that I am today.

These are my words

That I've never said before

I think I'm doing okay

And this is the smile

That I've never shown before

Somebody shake me cause I

I must be sleeping
