Zoe Jane

Staind

```
B        C#            Esmi
Well I want you to notice,
        B          C#        Esmi
To notice when I'm not around.
    B                C#              Esmi
To know that your eyes see straight through me;
      B          C#          Esmi
They speak to me without a sound.

F#          C#
I want to hold you,
Esmi                          B
Protect you from all of the things I've already endured.
F#          C#
I want to show you,
Esmi                          B
Show you all the things that this life has in store for you
F#            C#
 I'll always love you,
Ebm
The way that a father
B
Should love his daughter.

B          C#              Esmi
 When I walked out this morning
    B          C#          Esmi
I cried as I walked to the door
        B            C#        Esmi
I cried about how long I'd be away for
      B        C#          Esmi
Cried about leaving you all alone.

F#          C#
I want to hold you,
Esmi                          B
Protect you from all of the things I've already endured.
F#          C#
I want to show you,
Esmi                          B
Show you all the things that this life has in store for you
F#            C#
 I'll always love you,
Ebm
The way that a father
B
Should love his daughter.

F#  C#      Esmi      B
 Sweet Zoe Jane.....
F#  C#      Esmi  B
 Sweet Zoe Jane.....
```
