

# Heatwave

Stalking Gia

Cherry red lemonade  
We froze on the feeling of burning the feet on the pavement  
Race you to the sand  
Right where I wanna be  
How that's held heavenly, can't see a reason for waiting  
Yeah, catch me if you can

Hey now, sing now  
We want cooldown  
Hey now, sing now

Can we be a permanent heatwave?  
Can we stay this hot forever?  
Can we stay this hot forever?  
(Permanent heatwave)  
Nothing lasts forever, we could be nothing together

Our hearts are like helium  
Shit was heavy, we're healing and sometimes we need a vacation  
(vacation)  
From the future and the past  
I feel overconfident  
Basking in all the glory of one thing that's going my way  
Can it last longer than just today?

Hey now, sing now  
We want cooldown  
Hey now, sing now

Can we just live in a permanent heatwave?  
Can we stay this hot forever?  
Can we stay this hot forever?  
(Permanent heatwave)  
Nothing lasts forever, we could be nothing together

Getting hotter and hotter  
If you want it to stop stop stop  
We can jump in the water  
Cause I like 'em hot hot hot  
Getting hotter and hotter  
If you want it to stop stop stop  
We can jump in the water  
Cause I like 'em hot hot hot
