Stalley

That's why we outside  
That's why we outside  
That's why we outside  
That's why we outside

Hustle because I had to  
Nothing handed I passed through  
Junkies and warzones to secure that the cash grew  
Played the block like Adebayo to get my wrist wet like a bayou  
Kept the pistol for survival  
We was trending in the city before ever going viral  
Guys who had grab blades and pitched rocks in a spiral  
Childhood shit adolescent years piled up quick  
Hopped off the porch kicking dust stacking my chips  
Got it honest because the dope dealers never stay rich  
Like the hood had a glitch the way they stuck in the game  
They rather be popular than rich that's why I don't fuck with no fame  
All about the money and change progressive thinking  
Thought patterns is like a light bulb blinking blue alert  
I promised Momma albums covers before me on a shirt  
Two feet in the turf, off these raps I made it work  
Now its cash in hand for every time I spitverse

Stay on your grind young man  
Sturdy pivot head on swivel keep on shining young man  
Block out the noise clear the crowd and head up  
Even when things get difficult  
Never we get pouting we tough like Ford Truck  
Invest in self can't bet on luck  
We from the slums and we starving so you better bet on us  
Sleep on us that bed can't be plush  
While you dreaming we up living out our dreams in a tux  
Married to success and we just can't get enough  
Being outside is a rush adrenaline rushing through veins  
Ain't always love on this side we even hustle through pain  
Whatever it takes to feed the family gotta put food on plate  
Sometimes our prayers ran dry we had to make our own fate  
But still the angels stay with us that's just how God trains  
We never question the journey or how God thinks  
I hope all the good I do keeps me in high ranks  
And this fresh prince makes money to fill up banks
