

# Never Surrender

Stan Bush

You were born a fighter  
in the bird a mighty warrior  
Driven by desire  
Glory calls, its waiting for you.  
When they try to break you down  
You can take it  
That don't shake you  
When your backs against the wall  
The thrill of the fights  
Got you standing tall

Never surrender  
never say die  
You've got the heart of a hero

Never surrender  
The will to survive  
your standing strong  
in the eye of the storm  
Something keeps pushing you on

to Never surrender  
Never surrender

There's a burning passion  
deep inside a silent power  
With a quick reaction  
lightning strikes, you fight for honor

Winners have a price to pay  
you can taste it  
That don't change it  
Your not there to take the fall  
You'll fight til the end  
and you'll take it all

Never surrender  
Never say die  
You've got the heart of a hero

Never surrender  
keep it alive  
Your standing strong  
in the eye of a storm  
Something keep pushing you on

to Never surrender  
Never surrender

You'll never stop till you number one  
It's only a matter of time  
You'll never give up  
You'll never run  
Your layin your life on the line

Never surrender  
Never surrender

Never say die  
Don't stop  
Never surrender  
Got the will to survive  
Never surrender

Don't stop  
Never surrender
