

# The Search Is Over

Stan Bush

I wake up at night and feel you next to me  
Open my eyes and watch you sleep and touch your hand  
I feel so alive, it's all comin' over me  
I finally found out what it means to be a man

Chorus:

You're a lady, your light shines on me, my love  
The search is over, I see all I ever wanted in your eyes  
The search is over in my life  
I used to be lost, wanderin' endlessly  
I never knew life could be anything more than holdin' on  
But you came along, it felt like a raging sea  
You've changed my world, and given me strength to carry on

From the first moment I knew, 'cause this kind of dream can only come true, oh
