BACK TO THE RIVER

Stan Walker

```
I've been so alone
Alone in my own head
Nothing more to be said
Don't even know myself
And where did I go wrong
Thought that I would be okay
Wasn't meant to go this way
Now I gotta find myself

Everything has changed am I the one to blame
Never felt the same as I did that day
Should've given more but that was before
I couldn't give my all so I walked away

(Take me back to the river)
Now I feel like losing my mind
Maybe I've run out of time
(To the river)
Can't someone help me to find my way
Back to the river
(Take me back to the river)
Baby I'm down on my knees
Oh let it wash over me
(To the river)
All that I want's to be free

It's been too long
So long away from being home
And I'm just not myself no more
I wanna start again
And I wanna be strong
So I'm looking for some inner peace
I'm tryna be a better me
So I can start again

Everything has changed am I the one to blame
Never felt the same as I did that day
Should've given more but that was before
I couldn't give my all so I walked away

(Take me back to the river)
Now I feel like losing my mind
Maybe I've run out of time
(To the river)
Can't someone help me to find my way
Back to the river
(Take me back to the river)
Baby I'm down on my knees
Oh let it wash over me
(To the river)
All that I want's to be free
Back in the river

(Take me back to the river)
I feel like losing my mind
Maybe I've run out of time
(To the river)
```

Can't someone help me to find my way
Back to the river
(Take me back to the river)
Baby I'm down on my knees
Oh let it wash over me
(To the river)
All that I want's to be free
Back to the river

Can't someone help me to find my way
Back to the river
(Take me back to the river)
Baby I'm down on my knees
Oh let it wash over me
(To the river)
