

Cool Down

Stan Walker

There's trouble in paradise
I see it in your eyes
As far as I can tell
Your mood is hot as hell
There's trouble in paradise (oh)
I see it in your eyes
Fired up, going for the kill
You need to cool down and chill

You're breaking a sweat (cool down)
Need to get wet (cool down)

(There's trouble in...)
There's trouble in paradise
I see it in your eyes
You're melting in the heat
Like it's 69 degrees
There's trouble in paradise, oh-oh
I see it in your eyes
Lost in the daily grind
When you need some downtime

You're breaking a sweat (cool down)
Need to get wet (cool down)
In the shade, drinking lemonade
Take a sip, let your mind trip
Breaking a sweat (cool down)

In the shade, drinking lemonade
Take a sip, let your mind trip
I'll turn your heartrate back down to a peaceful state

You're breaking a sweat (cool down)
Need to get wet (cool down)
In the shade, drinking lemonade
Take a sip, let your mind trip
Breaking a sweat (cool down)
I'll turn your heartrate back down to a peaceful state

There's trouble in paradise
Cool down
