

# Light It Up

Stan Walker

I'm so attuned, when your body moves close  
You are so above me, I'm under you  
Like the moon, Oh your energy glows  
When you are around me, I revolve with you

When we're feeling in sync  
I watch the world go by  
Erase the moon and stars  
If I could have your sky  
Are you feeling me?  
The way I'm feeling you?  
No coming down this high

Lets light it up tonight  
(Whoa whoa whoa)  
I wanna feel alive  
(Whoa whoa whoa)  
Lets light it up Tonight  
(Whoa whoa whoa)  
Somebody kill the lights  
We need to do it right  
(Whoa whoa whoa)  
I wanna feel alive

You're so in tune, let the chemistry flow  
The way you play a melody, I never knew how it felt to be us  
We have it easy, let me take you there

When we're feeling in sync  
I watch the world go by  
Erase the moon and stars  
If I could have your sky  
Are you feeling me?  
The way I'm feeling you?  
No coming down this high

Lets light it up tonight  
(Whoa whoa whoa)  
I wanna feel alive  
(Whoa whoa whoaaa)  
Lets light it up Tonight  
(Whoa whoa whoa)  
Somebody kill the lights  
We need to do it right  
(Whoa whoa whoa)

Let's light it up tonight  
We only get only get one life  
If tonight's the night  
I wanna feel alive (I wanna feel your light)  
I wanna feel alive

Hey - I wanna feel the light  
I wanna feel your light  
Lets light it up tonight  
Lets light it up, up  
Lets light it up tonight
