

Like It's Over

Stan Walker

One time
A try
Alright
3, 2, 1 (C'mon!)
You acting like, like it's over
You acting like, like it's over
You acting like, like it's over now, baby

I'm moving my body so close to you
Can you feel my heartbeat, I know what to do
Feel the heat rising, I throw it to you, baby
Know you don't believe me, but I want you
You're the only one, you know you feel it too
You are my sun and I am your moon, yeah

You keep telling yourself it ain't gon' work
When, baby, you know soon I will get through to your heart

One time (One time)
Let's beat this, baby, let's give it a try (A try)
Forget what happened before, it's alright (Alright)
You know we got more than just one night, night, night
But you act like... (C'mon!)
You acting like, like it's over
You acting like, like it's over
You acting like, like it's over now, baby

You had your chance, you know what to do
Your body keeps moving, you look like a fool
I feel your beat, you're so out of tune, yeah
I can't believe you 'cause you want to
Nothing nobody gonna make me do
I am the sun, but I have no moon, oh

You keep telling yourself that I'm the one
When, baby, you know that's gon' take more work to win my heart

One time (One time)
Let's beat this, baby, let's give it a try (A try)
Forget what happened before, it's alright (Alright)
You know we got more than just one night, night, night
But you act like... (C'mon!)
You acting like, like it's over
You acting like, like it's over
You acting like, like it's over now, baby

(Fire, fire) Can you feel it inside
(Higher, higher) Burn it up so bright
Your body can't deny the way it makes you move
You can feel it rising beneath you

(Fire, fire) Can you feel it inside
(Higher, higher) Burn it up so bright
Your body can't deny the way it makes you move
You can feel it rising beneath you

I keep telling myself that you're the one

Baby, you know that's gon' take more work to win my heart
