Loud

Stan Walker

When lights go down
And the stars come out
We can rock it
We – We – We can rock it

Got me feeling right
I could dance all night
Till we drop it
Nobody tells us when to go

DJ turn it up
Were not coming down
And Through all the noise
Make them hear the sound

When two hearts as one
Light up the crowd
Through all the noise
We can make it
Loud
Loud
Loud

We can make it
Loud
Loud
Loud

We're so high right now
Lifting off the ground
We can feel it
We – We – We need it

Up to you and I
We command the night
We ain't leaving
Nobody tells us when to go

DJ turn it up
Were not coming down
And Through all the noise
Make them hear the sound

When two hearts as one
Light up the crowd
Through all the noise
We can make it
Loud
Loud
Loud

We can make it
Loud
Loud
Loud

Hey – yeah

Wanna make it loud
Hey - yeah - yeah

DJ turn it up
Were not coming down
And Through all the noise
Make them hear the sound

When two hearts as one
Light up the crowd
Through all the noise
We can make it
Loud
Loud
Loud

(Lets hear it)

We can make it
Loud
Loud
Loud

(Hey, Hey, Hey, Hey)

Make it loud
