

Mexico

Stan Walker

I met her in the summer
Double-take she look like Rihanna
Dancing on the beach like Moana
I couldn't keep my eyes off her a stunner
Makes me wanna say

She like it when I call her Mamacita
She tango to the beat miss senorita
Fly across the border just to see her
Mix troubled behaviour with tequila
Makes me wanna say

I met her in Mexico
In Mexico
I met her in Mexico
In Mexico

Well girl I gotta confess
You've been looking so damn good in that sexy dress
Now it's my turn bring it close and let your body press
Against mine oh it's time girl don't second guess

Move left
Say drop it down low
Baby move your body wind up for me real slow
Keep left
Then groove with the flow
Bring your body closer girl I know you want some more

She only wanna dance for me
Me
For me
Me

Woah, ay
Mamma said you're loco no joke, ay
Probably can we just talk, ay
Love it when you drop it like an iPhone cause you careful with it
When you pop, pop, pop, dang
All eyes on you and you ain't playing, dang
Yeah we can blow, body shot tequila, sangria and coco my head oh my god

There she go again looking fire, ah yah
Booty make an angel cry, ah yah
Then forget it Imma keep it to myself
Cause I don't wanna share with no one else

Foul blow when she below the belt
Purist hell that you have ever dealt with
A Mexico queen
