

## Last Girlfriend

Stanaj

Maybe if you talk to all my ex's  
You'd understand it  
Right now it just sounds like I'm just flexin  
But you'll understand it  
Baby if we start the story from the top  
You'll see that I planed it  
I was always tryna make it to the top  
And that's where I'm standing  
I don't ever wanna fall from here it's such a long way down  
I ain't tryna turn back around  
Why would I turn back around  
That was where I been  
You know where I'm going  
I just wanna be wherever you are  
Cause you set the bar

Someone tell my ex girlfriend I met my next girlfriend  
Someone tell my worst girlfriend  
I think I met my best friend  
I think I started something  
Something that I'll never let end  
Someone tell my last girlfriend I met my last girlfriend

I just checked the last box on the checklist  
Better respect it  
I was running backwards acting wreck less  
But then I reflected  
I was never gonna make it to the top  
Not with my ex's  
I wish we could fast forward to the end then you'll understand  
it  
Baby that was where I been  
You know where I'm going  
I just wanna be wherever you are  
Cause you set the bar

Someone tell my ex girlfriend I met my next girlfriend  
Someone tell my worst girlfriend  
I think I met my best friend  
I think I started something  
Something that I'll never let end  
Someone tell my last girlfriend I met my last girlfriend
