

I wasn't looking out for blood and now I found it  
Wouldn't give it up, you fought around it  
Use me like a drug  
I took a piece of the darkness with me at 17  
It makes me sick in my mouth to think about it  
Shoulda knocked you out, would do it now  
Don't think your mum would be too proud  
What if I told her?  
What if I told her?

I wish we never fuckin' met  
I wish we never fuckin' met  
I wish we never fuckin' met  
I wish we never fuckin' met

Kill me  
Use me like a drug  
Use me like a drug  
Take me  
Why would I ever want that with you?

Don't even wanna say it all  
And I don't need to  
Been a couple years  
Should I be sorry for getting it out now?  
But how do you even deal with that shit when you're 17?  
Took a chunk out of my soul to keep a secret  
Weaker than your will to get your dick wet  
Adrenaline rush  
Took all you could get  
And left me shipwrecked

I wish we never fuckin' met  
I wish we never fuckin' met  
I wish we never fuckin' met  
I wish we never fuckin' met

Kill me  
Use me like a drug  
Use me like a drug  
Take me  
Why would I ever want that with you?  
Kill me  
Use me like a drug  
Use me like a drug  
Take me  
Why would I ever want that with you?

I wish we never fuckin' met  
I wish we never fuckin' met  
Spit on your face to save my breath  
I wish we never fuckin' met

I wish we never fuckin' met  
I wish we never fuckin' met  
I wish we never fuckin' met  
I wish we never fuckin' met

I wish we never fuckin' met  
I wish we never fuckin' met  
And I wish we never fuckin' met  
I wish I never fuckin' met you
