

Breakaway

Stand Atlantic

Claim to know what's best for me
And you're taking shots with the enemy
And I'm left waiting for (what)
If someone could just tell me how
I guess we can deepen this
That now we can't get out

Is this the end
Cuz I can't pretend
The circles will end
Cuz circles don't end

Watch me resist
I'll leave you with the pieces
Of us in the distance (woah)
Sick of sinking, were always sinking
If you take me out then I will breakaway

I think you know me way to well
And I told you all there is to tell
That we see eye to eye (yeah)
Why oh why are we so blind
Thought we'd work it out this time
I guess our time ran out

Is this the end
Cuz I can't pretend
The circles will end
Cuz circles don't end

Watch me resist
I'll leave you with the pieces
Of us in the distance (woah)
Sick of sinking, were always sinking
If you take me out then I will breakaway

You can try to resist this
I'll leave you with the pieces of us in the distance
You can try to resist
I'll leave you with the pieces of us in the distance
Just try to resist
And I'll leave you with the pieces of us in the distance

Watch me resist
I'll leave you with the pieces
Of us in the distance (woah)
Sick of sinking, were always sinking
If you take me out then I will breakaway

So sick of sinking
Were always sinking so
If you take me out then I will break
