dumb

Stand Atlantic

Got me lookin' so dumb right now
Somethin's gotta give, but I just don't get it
Upside down

I don't give a fuck 'cause I just don't get it

I don't give a fuck 'cause I just don't get it

Yeah you got fangs, but no venom
I'm lickin' these wounds like medicine
And I'm swimmin' in the bleach till I burn away

Another wax figure out of shape
And it's giving me a fever that I can't escape
Still I dunno why I gotta-gotta feel this way
Oh

Something's gotta give and I just don't get it

Got me lookin' so dumb right now
Somethin's gotta give, but I just don't get it
Upside down
I don't give a fuck 'cause I just don't get it
So wrong, murder of third degree
All gone, killin' the best of me
I'm scared, but I'm in reverie
I don't give a fuck 'cause I just don't get it
I don't give a fuck 'cause I just don't get it

I tried to be open
You just shot me down
When you cause a commotion
It's hard to be down
It's hard to be anything when you come around
They wouldn't come around in the first place
Only see me now 'cause the crowd's in the cold, I was sixteen
Feeling real down, feeling low
Feeling like I should've done this before

(Got me lookin' so)
Got me lookin' so dumb right now
Somethin's gotta give, but I just don't get it
Upside down
I don't give a fuck 'cause I just don't get it
So wrong, murder of third degree
All gone, killin' the best of me
I'm scared, but I'm in reverie
I don't give a fuck 'cause you got me-

Got me lookin' so dumb right now
Somethin's gotta give, but I don't fucking get it
Got me upside down
I don't give a fuck 'cause I just don't get it
So wrong, murder of third degree
All gone, killin' the best of me
I'm scared, but I'm in reverie
I don't give a fuck 'cause I just don't get it

```
I don't give a fuck 'cause I just don't get it
I don't give a fuck 'cause I just don't get it
```

```
I don't give a fuck 'cause I just don't get it
I don't give a fuck 'cause I just don't get it
```
