

Hate Me (Sometimes)

Stand Atlantic

Oh, where did I go wrong?
Limbs in a noose
Thought I'd be better
But I'm written off to tell you the truth

Dead in the water
Carry me home
Get off on whiplash
I'm losin' myself red and I'm blue

I set fires so deliberately
'Till I taste the smoke
On every part of me
My hands are promised to my dirty jeans
But I would sell myself to almost anything

I don't need your help
You should probably save yourself
There's blood on my hands
(You should probably save yourself)

I think I like the way you hate me sometimes
Hate me sometimes (take it back)
You come and go just like the bones I'm breaking
Bones I'm breaking (take it back)
I think I like the way you hate me sometimes

Give me a moment
And cut me loose
Buried in my bed
('Cause all of this is dim)

I set fires so deliberately
'Till I taste the smoke
On every part of me
And I can't swallow what you threw at me
And no I don't need your help
(You should probably save yourself)

I think I like the way you hate me sometimes
Hate me sometimes (take it back)
You come and go just like the bones I'm breaking
Bones I'm breaking (take it back)
I don't need your help
You should probably save yourself
'Cause there's blood on my hands
It's hangin' over my head

(Take it back, take it back)
(Take it back, take it back)

I think we're shakin' the room, there's nothing left to hold onto
(Take it back, take it back)
Maybe we're stuck in the dark, it doesn't matter I'm see-through
(Take it back, take it back)

I think I like the way you hate me sometimes

Hate me sometimes (take it back)
You come and go just like the bones I'm breaking
Bones I'm breaking (take it back)
I don't need your help
You should probably save yourself
'Cause there's blood on my hands
It's hangin' over my head

I think I love the way you hate me sometimes
Hate me sometimes (don't take it back)
You come and go just like the bones I'm breaking
Bones I'm breaking (can't take it back)
I don't need your help
You should probably save yourself
I don't need your help
You should probably save yourself
