

Like That

Stand Atlantic

Honey-coated speech and I'm overdosing
It's just like that (It's just like that)
Delicately dying for another minute
It's just like that (It's just like that)

Gold rush
What you digging out of me?
This head rush
Stomach's in my neck
I gotta stand still
Dizzy, dumb and in between
And it's just like that
(It's just like that)

Heavy dose, comatose
Can't seem to find the words
And it's just like that, it's just like that
Skeleton, bring me in
I'll bleed a little more for you
Just like that, it's just like that
(And it's just like that)

Never sought it out, need an antidote
And it's just like that (It's just like that)
Careful, I could brush pain into your picture
It's just like that (It's just like that)

Gold rush
What you digging out of me?
This head rush
Stomach's in my neck
I gotta stand still
Dizzy, dumb and in between
And it's just like that
(It's just like that)

Heavy dose, comatose
Can't seem to find the words
And it's just like that, it's just like that
Skeleton, bring me in
I'll bleed a little more for you
Just like that, it's just like

Crushing bones, I don't know
My guts keep falling out
And I'm starting to disintegrate
Oh carry on
Yeah, it's just like that, it's just like that

In my crowded brain, you're in uppercase
Cutting veins 'til they spell out your name
I'm speaking to ceilings
And finding release somehow

(Honey-coated speech and I'm overdosing)
It's just like that

Heavy dose, comatose
Can't seem to find the words
And it's just like that, it's just like that
Skeleton, bring me in
I'll bleed a little more for you
Just like that, it's just like

Crushing bones that I know
My guts keep falling out
And I'm starting to disintegrate
Oh carry on
Yeah, it's just like that, it's just like that
