

## pity party

Stand Atlantic

Paper cuts like a drug, you love sympathy  
Genuine deficit, people watch you bleed  
Make it up, sell your drugs, milk the tragedy  
Yeah, yeah

Slow motion crash, foot on the gas  
Nobody's safe  
God, what a mess, not falling for it  
But I can't look away  
Someone's gotta say it

Fuck you and your fucking pity party  
I'm not invited and I don't ever wanna be  
Not sorry that I'm not the way you want me  
So fuck you and fuck your pity party  
Go ahead, let me be the enemy  
I got no time for all your fake bitch energy  
Not sorry that I'm not the way you want me  
So fuck you and fuck your pity party  
(Your pity party)

Waking up from a cult on my hands and knees  
Think you poisoned the punch, I'm just trying to leave  
Wish you luck keeping up with your sanity  
Yeah, yeah

Slow motion crash, foot on the gas  
Nobody's safe  
Yeah, all of your friends know how this ends  
Can't look away  
Someone's gotta say it

Fuck you and your fucking pity party  
I'm not invited and I don't ever wanna be  
Not sorry that I'm not the way you want me  
So fuck you and fuck your pity party  
Go ahead, let me be the enemy  
I got no time for all your fake bitch energy  
Not sorry that I'm not the way you want me  
So fuck you and fuck your pity party

(Paper cuts like a drug, you love sympathy  
So fuck you and fuck your pity party  
Waking up from a cult on my hands and knees  
So fuck you and fuck your pity party)

Fuck you and your fucking pity party  
I'm not invited and I don't ever wanna be  
Not sorry that I'm not the way you want me  
So fuck you (so fuck you)  
Go ahead, let me be the enemy  
I got no time for all your fake bitch energy  
Not sorry that I'm not the way you want me  
So fuck your pity party
