

switchblade

Stand Atlantic

You say what you wanna say
Break my legs and run away
Can't play god
Miss me with your switchblade

Gimmie a new mindset
Suffering in silence
Shutting me down
Can't you see I'm upset?
Volatile substance
Letting you down

Biting like an animal
Whatever, I wish you well
I forget we're not the same
Just a puppet in your game
I can't breathe
I can't breathe
No

You say what you wanna say
Break my legs and run away
Can't play god
Miss me with your switchblade

Taking all your cheap shots
Take 'em till my body drops
You say what you wanna say
Miss me with your switchblade

Acid in a deep cut
Got me in a headlock
You say what you wanna say
Miss me with your switchblade

I been losin my mind
Pocket full of moonshine
Who am I now?
I forget we're not the same
Just a puppet in your game
I can't breathe
I can't breathe
Ugh

Taking all your cheap shots
Take 'em till my body drops
You say what you wanna say
Miss me with your switchblade

Acid in a deep cut
Got me in a headlock
You say what you wanna say
Miss me with your switchblade

Can't help myself
Living in a comedown

Taking all your cheap shots
Take 'em till my body drops
You say what you wanna say
Miss me with your switchblade

You say what you wanna say
Break my legs and run away
I don't really give a fuck

Taking all your cheap shots
Take 'em till my body drops
You say what you wanna say
Miss me with your switchblade

Acid in a deep cut
Got me in a headlock
You say what you wanna say
Miss me with your switchblade

Can't help myself
Living in a comedown

Taking all your cheap shots
Take 'em till my body drops
You say what you wanna say
Miss me with your switchblade

I can't breathe
I can't breathe
No
