

Tonight We Stay

Stand Atlantic

So it's late and I can't stay but
When you hold me I just can't leave

As we lay here tonight
Our fingertips entwined
And with one touch I'm floating

And I've got stories
If you dare to believe me
And you've got secrets
And I promise to keep 'em

And it's so late and I can't stay but
When you hold me I just can't leave
And when you kiss me I lose my body
So as the city sleeps tonight we stay until the sunrise

What would you say if I told you that
Every piece of me is anchored at your feet?
And all of the demons that keep you awake all night
I'll keep them away 'til there's none left to fight
'Til there's none left inside

And I've got stories
If you dare to believe me
And you've got secrets
And I promise to keep 'em inside of me

And it's so late and I can't stay but
When you hold me I just can't leave
And when you kiss me I lose my body
So as the city sleeps tonight we stay until the sunrise

Tonight we stay
Tonight we stay

And it's so late and I can't stay but
When you hold me I just can't leave
And when you kiss me I lose my body
So as the city sleeps tonight

We stay, we'll be okay
'Cause when you hold me I just can't leave
And when you kiss me I lose my body
So as the city sleeps tonight we stay 'til the sunrise
