

I'm only worth it if you say so
All I hear are subtle low blows
That play on my mind like it's fresh Play-Doh
I hate the xo, I hate the xo

Only love me when we're solo
Tell me something that I don't know
Moulding my brain like a hurricane, no
I hate the xo, I hate the xo

I'm overthinking what I don't know (I hate the xo, I hate the x
o)
I put my head through a window (I hate the xo, I hate the xo)
And I gotta say that I hate this, I get so frustrated
When you got my back to the wall
I'm overthinking what I don't know (I hate the xo, I hate the x
o)

Getting high on all the dead fumes
A feeling that I'm getting used to
Occupying my head, is it safe to be numb?
I hate the xo, I hate the xo

Tell me you love me when you don't though (Don't go)
Show me a heaven like a yo-yo
I never ran away, not from loving you the same
I hate the xo

(Yeah, I just hate it heaps)

I'm overthinking what I don't know (I hate the xo, I hate the x
o)
I put my head through a window (I hate the xo, I hate the xo)
And I gotta say that I hate this, I get so frustrated
When you got my back to the wall
I'm overthinking what I don't know (I hate the xo, I hate the x
o)

(I hate the xo, I hate the xo)
I'm overthinking what I don't know (I hate the xo, I hate the x
o)
I put my head through a window (I hate the xo, I hate the xo)
And I gotta say that I hate this, I get so frustrated
When you got my back to the wall
I'm overthinking what I don't know (I hate the xo, I hate the x
o)
