

## Dreamcatcher

### Stand High Patrol

DJ you're my dreamcatcher  
I need your sound to get out my nightmares  
I need your sound to get out bad memories  
Before they're going to reach me

Make me lose my self in a break beat  
Make me lose my self in a bass line  
Go skipping from a drum to another  
I want to get into trouble  
Make me lose the track of the time  
Make me lose my temper sometimes  
Go skipping from a chat to another  
I want to get into trouble  
DJ you make me dizzy  
Keep on spinning around  
I feel a little giddy  
You see your sound make me twist and shout

DJ you're my dream catcher  
I need your sound to get out my nightmares  
I need your sound to get out bad memories  
Before they're going to reach me
