

Dub O'clock

Stand High Patrol

What time is it? It's dub o'clock
Sound system reggae road block
What time is it? It's dub o'clock

In the street, in my district
We set up the sound at 13
The sky is grey and the grass green
We'll play dubadub 'til the morning

We experiment, well excellent
We experiment like jazzmen
We experiment, well excellent
We experiment like jazzmen

Since 2001
Stand high is here to have the job done
The bass and the drums, the keyboard bounce
Trumpet and saxophones

Up to date we play a dubplate
We can feel love, we can feel hate
We don't give a damn, we experiment
We experiment like jazzmen

What time is it? It's dub o'clock

Independent, we are independent
We do what we want at any moment
Independent in the business
The sound is based on friendliness

2016
Still trying to break the routine
The sky is grey and the grass green
We'll play dubadub 'til the morning

Our first time was in London
With Aba and channel one
Then we went to Brixton
To see Tubbys and Iration
