Strange sounds recorded by Rosetta  
Sounds that sound loud and clear  
Strange sounds recorded by Rosetta  
Creepy sounds that I fear

It's like she's brushing her teeth  
In the magnetic fields  
It's like she's washing her teeth  
Is the sound of the touchdown that we can hear  
She got sensors in her feet  
Is this just a gimmick? Is this just a trick?  
She got sensors in her feet  
But there are lots of unknown here  
Unknown here

Farewell to the close flyby  
Farewell to the close flyby  
I was you, flying through the darkness and the wonder of space  
You came into my life filling my mind with your burdensome grace  
Now sleep well you deserve it  
It's the end of the carousel  
Farewell to your comet footsteps
