

The Ghost

Stand High Patrol

I am the ghost
You can't see me but I'm here
Yes I am your host
Welcome, I want you to be scared
From coast to coast
I will haunt your nightmares
Until you die and even after

You escaped justice
But you won't escape me
You killed me on a freezing morning
No witnesses to protect me

Your friends in high places
Got you out of the woods
Your friends in high places
I will haunt their nights too

My revenge will be scary, and long
The thunder will be louder, than this song
My revenge will be scary, and long
The thunder will be louder, than this song

I am the ghost
You can't see me but I'm here
Yes I am your host
Welcome, I want you to be scared
From coast to coast
I will haunt your nightmares
Until you die and even after

You escaped justice
But you won't escape me
You killed me on a freezing morning
No witnesses to protect me

Your friends in high places
Got you out of the woods
Your friends in high places
I will haunt their nights too

My revenge will be scary, and long
The thunder will be louder, than this song
My revenge will be scary, and long
The thunder will be louder, than this song

I am the ghost
I am the ghost
I will haunt your nightmares
I am the ghost
I am the ghost, yes
